

Important Notes Fall 2005 FINAL file

1. Katrina related students are reported under the College designated CSU in this report.
2. This report is based on Fall 2005 HEI numbers.

As of now:

The base data file is extracted on the 15th day of each semester. However, we remove all students canceled for non-payment as well as adding students' enrollments in flexibly scheduled courses. The information represented in this file such as student major, college, age, address, etc. are mainly as of the 15th day of each semester.

Ideal situation:

This file is captured at the end of each semester after students' grades are in the system. The data are extracted based on the "census point" defined by OBOR. In essence, the data fields reported in this file, such as student major, college, age, address, etc. are based on what were in the system at the end of each semester. We update the fields such as course grades, cumulative GPA, class standing, etc. after the grades are in (typically about 30 days after the semester or after the Law grades are in, whichever is later). Finally, before report to OBOR, all the students included in this file were verified with the records in
